Barbara Lyons Stewart, AIA, is an Architect, Interior Designer, speaker and author with a specialty in the Ancient and Modern Forms of Environmental Psychology, ranging from Feng Shui to Evidence Based Design. Barbara's expertise as a Feng Shui Consultant stems from her ability to blend the ancient principles of Feng Shui with the program, design aesthetics, budget and process of modern architecture projects. Whether a client wants obvious Feng Shui design features to appeal to knowledgeable end-users or buyers, or wants a design that follows ancient Feng Shui principles without incorporating Feng Shui imagery, Barbara will make recommendations appropriate to the specific client's and designer's goals.
